

Underwriting Analyst – Full-Time Position

Commercial Mortgage Origination -
Large Loan Group Provide analytical and administrative support to
Commercial Loan Origination Underwriters.

Responsibilities include analyzing and underwriting large commercial real estate loans, preparing moderately complex spreadsheet analysis for presentation to loan originators/underwriters, and the collection, organization and maintenance of loan files. The position will coordinate with origination, underwriting, pricing and pool preparation staffs in working loan proposals through approval and eventual securitization.

Aspects of this job bring together the worlds of real estate finance and Wall Street debt placement.

We are seeking a very sharp individual who learns quickly, will demonstrate remarkable work ethic and focus, and who will seize this unique opportunity to acquire invaluable knowledge and skills. We seek someone who thrives in a fast paced environment and meets the position's demands with precision and care.

Real estate, finance or accounting knowledge is a plus. Financial modeling skills are essential.

You're encouraged to use your abilities to the fullest so that you can grow in your job and career. Wells Fargo is willing to spend considerable energy training and developing someone with the potential to excel
